

STATEMENT OF REASONS

The general effect will be to introduce a 30MPH Speed Limit on the section of the C57H Bridge of Livet to Minmore Road, Glenlivet as specified in the Schedule below.

Following submission of a successful planning application to extend the existing Chivas site at Glenlivet on the C57H Bridge of Livet to Minmore Road (14/01488/EIA), agreement was reached with the developer to extend the existing 30mph speed limit to reflect the changes to the road layout and on road safety grounds. The proposals reflect what are reasonable and sustainable improvements to the current existing speed limit and will benefit vulnerable road users. There is a confident expectation that there will be high level of compliance on what is a narrow rural road. Traffic surveys have confirmed that vehicle speeds within the new road layout are acceptable for the 30mph speed limit to be extended as indicated in this proposal.
